Subject: Phthalate plasticizers — Rollerflex[®] 4000 and 9000 series hose

To Whom It May Concern:

This letter is provided in response to requests for information on the phthalate content of Rollerflex[®] flexible PVC hose manufactured by Superflex Ltd.

To the best of our knowledge, and based on our compound formulations and written declarations from our plasticizer and compound suppliers, Rollerflex 4000 series and Rollerflex 9000 series hose are formulated without ortho-phthalate plasticizers. In particular, they do not contain DEHP, DBP, BBP, DIBP, DINP, DIDP, DNOP, DPENP, DHEXP or DCHP (the phthalates restricted under 16 CFR Part 1307 and RoHS Annex II) above the 0.1% weight-by-weight reporting threshold.

Please contact us for phthalate information on other Superflex or Sealproof[®] product lines.

This information is provided in good faith and is accurate to the best of our knowledge as of the date above. It is based on our own formulations and on written declarations from our raw-material suppliers, is subject to change as regulations and supplier data are updated, and is offered to assist the recipient's own compliance review rather than as a warranty. Please contact Superflex Ltd. for a statement covering specific part numbers or a later revision of the regulation.

Sincerely,

A handwritten signature in black ink, appearing to read 'Michael Elbaz', with a stylized flourish at the end.
