Subject: California Proposition 65 — Safe Drinking Water and Toxic Enforcement Act of 1986

To Whom It May Concern:

This letter describes the position of Superflex Ltd. products under California Proposition 65, which requires businesses to provide a clear and reasonable warning before knowingly and intentionally exposing a person in California to a chemical listed by the State as known to cause cancer, birth defects or other reproductive harm.

Certain raw materials used in our products contain, or may contain as a residual of manufacture, substances that appear on the Proposition 65 list. Based on our formulations and supplier declarations, the listed chemicals relevant to our product lines are:

Product group	Proposition 65 listed chemical	CAS No.
Conduit and hose products — liquid-tight conduit (LFNC-B), ENT, liquid-tight connectors and couplings, flexible PVC hose	Vinyl chloride (residual monomer in PVC resin)	75-01-4
Black nylon liquid-tight connectors and fittings	Carbon black (airborne, unbound particles of respirable size)	1333-86-4
Fire-retardant polyethylene split conduit	Antimony trioxide (antimony oxide)	1309-64-4

The presence of a listed chemical in a raw material does not by itself mean that a finished product causes an exposure requiring a warning. In our finished conduit, fittings and hose these substances are bound in the polymer matrix, and exposure in normal use is highly unlikely. Because Superflex Ltd. does not control or have knowledge of every downstream application, however, we do not make a determination of "no significant risk" on behalf of our customers. To support our customers' compliance, our products and packaging carry the Proposition 65 warning where required.

Customers who resell into California should review their own labelling obligations under Title 27, California Code of Regulations, Article 6. Further information is available at www.p65warnings.ca.gov and oehha.ca.gov/proposition-65.

SUPERFLEX LTD
400 S 2nd St
Elizabeth, NJ 07206

This information is provided in good faith and is accurate to the best of our knowledge as of the date above. It is based on our own formulations and on written declarations from our raw-material suppliers, is subject to change as regulations and supplier data are updated, and is offered to assist the recipient's own compliance review rather than as a warranty. Please contact Superflex Ltd. for a statement covering specific part numbers or a later revision of the regulation.

Sincerely,

A handwritten signature in black ink, appearing to read 'Michael Elbaz', with a large, stylized loop at the end.
